

# Quick Start Guide:

## Setting up your Wi-Fi and App

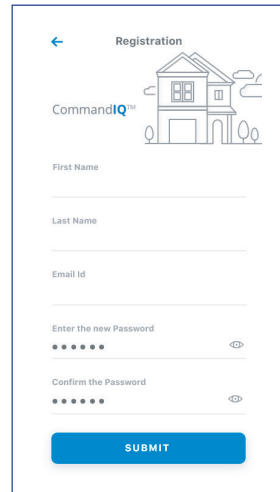

- 1** Download the app. You can search either the Apple App Store or Google Play Store for: **CommandIQ™**, then install it on your mobile device

- 2** Select “SIGN UP” towards the bottom of the screen.

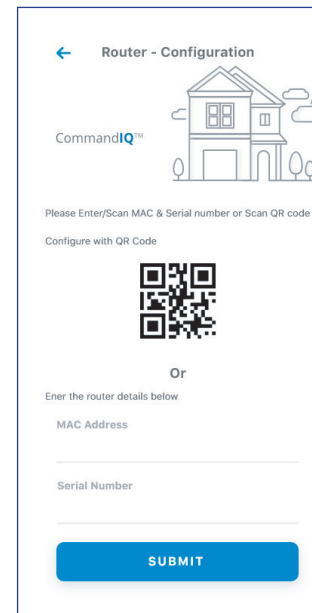

- 3** Enter your personal information. The password you enter here will be used to access the app.

**Note:** Please wait at least 10 minutes after your GigaSpire has been ‘turned up’ before attempting step 4.

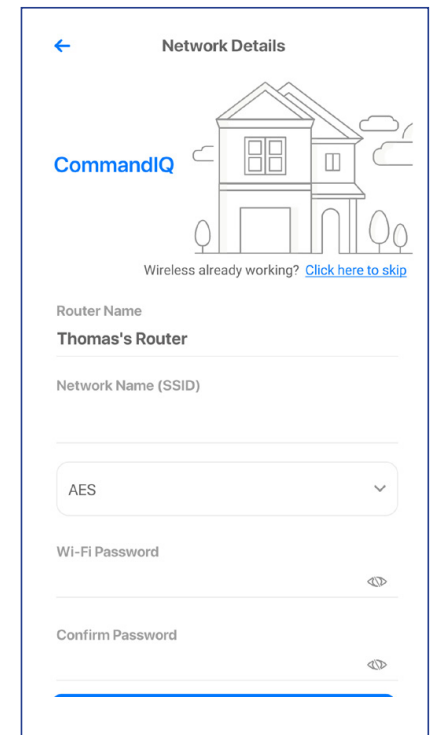

- 4** Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.)

Point your camera at the QR Code found on the bottom of your GigaSpire, or on the sticker that came in your box (example shown below).

- 6** Finish Setup

Since Yucca sets up your wifi remotely, select ‘Click here to skip’ towards the top right of the screen. Once the network has been detected, enter the existing WI-Fi password for your network.

### Getting started with the App

The App allows you to manage your home or small business Wi-Fi network. You can self-install and be managing your home or business within a few minutes. Download the app and start managing your home network today!
